

1. Free

Yeah yeah yeah yeah, yeah yeah, oh
I gotta tell u something
It's been on my mind a long long time
It's gonna start today
I'm on my way.
Precious time is tickin'
Change is comin' my way
No more 9 to 5
I just need to feel alive
My conscious makes me feel it, baby
Now the time has come
To set myself... Free
Yes I am...Free
Like a bird, spread my wings
Just doin' my thing
I'm free baby
Yes I'm free baby
Now that I'm inspired to be here in moment
I'm never gonna lock me down
To something I just won't do
Just push urself and follow through
Don't deny the things important to u
Though I need to know
You got my back
And promise not to let me go
I'm on my ride
I'm finally on my way to set myself... Free
Best for me that I'm...Free
Like a bird, spread my wings
Finally just doin' my thing
Yeah I am... Free
Free free free
Don't u know baby
Free baby...Free
I'm free, don't u know
I'm here to tell u baby
Spread my wings and fly
...Adlib, I'm free baby
U gotta know that I always wanna be, free baby
That's me,
No more beggin' on my knees... Yeah, I am baby
I'm free baby
Here I am, I'm so so me
U gotta do whatever need be
Just do ur thing
And let it swing, baby
I'm never goin' back that way
It don't seem to matter anyway
'Cause time will certainly agree
Now I'm leading to my destiny u'll see
Livin' life presently.... Free, I'm free, yeah

2. Just the Way It Is

I remember
When u were a little prune
Always waking up too soon
Now that ur a little girl baby
Doin' ur thing
I just love ur upbringing yeah
U needed my attention
I'll feed u my wisdom
Take it for what it's worth
I'll always guide u, hence
I'm on this earth

U'll always be my princess
Lord knows ur growin' up too soon but
I just can't watch ur every move
U gotta live ur groove
Gotta take the good, the bad,
Be sad and surely glad
It's just part of the plan
You gotta take a stand

It's just the way it is
Just the way it is
It is, what it is, what it is
It's just the way it is
Just the way it is
Oh baby, oh have mercy
Oh now babe, yeah

Yeah yeah yeah yeah
Ur so gentile
With ur little smile
Oh, how can anyone never love u baby
Whatever u must go through
Just be true
And remember
That I will always love u

Oh,
Ur just my little girl
It just the way it is
Whenever, forever
I'll always love u baby

3. Did No Wrong

I remember the days when I was a sinner
Chillin' with my friend known as Jim binger
We gonna party all night long
Party hard until the end of the song

Gotta wake up early in the morning
Gotta drink my coffee or be jonesing, yeah
Working hard, all day
Now it's time to breakaway, yeah

I'm gonna go home now
Rest my head and sit back somehow
My phone rings, it's 9:15
I see the name on the telephone screen and a
There's always something in between yeah

I did no wrong
And admit it along
I did no wrong
But u gotta play it 'til the end of the song

Oooohh.. Here we go again
It's time to party, just say when
Baby I paid the bills
I just gotta go, can't stand still

Adlib...

The next day, it's gonna be a good play
Now it's time to take my babe on a getaway
We gonna do her groove and take in stride
As long as she's, satisfied, yeah yeah
Yeah baby, I gotta tell ya

I did no wrong
And admit it along
I did no wrong
We just gotta get along, get along
I did no wrong
U gotta keep it strong
I did no wrong
But u gotta play it 'til the end of the song

4. Funky Jam II

Hmmmm

5. Miss U

Adlib...

I remember when we used to
To cease the moments just me and u
How quick time goes and ur already old
Just got no control
And believe that ur soul
Will live, forever
Now that ur gone
I really miss ur laughter
But I know
Ur on a different chapter
But I miss u
I'd really love to see u again
I just don't know when
And always from the start
U had a good heart
That's for sure
Ur were so so pure
Even though
Ur soul is still around
I keep my sins intact
'Cause I know ur looking down
I'll keep my promise to u
Oooo. I don't know any other way
It just the way to keep it true, I miss u, I miss u
I'll keep my promise to u
I really really miss u
I know it just the way we do
I just miss u
Oooooo...
Every single day
I feel that ur out there
Flyin' down the milky way
U showed me the good
To help the moment yes I would, yes I would
You never did me wrong
And always kept it strong
Ur life was so intact
It's just a simple fact
Yeah, yeah yeah, I
I miss u, I really really do,
Yeah...
I'll keep my promise to u, To u, to u
It's just the way to keep it true
I'll keep my promise to u, to u
I'll keep my promise to u, I miss u, I miss u
I know it just the way we do, Oooooo...
I'll keep my promise to u, to u, babe to u
It's just the way to keep it true
I'll keep it to u baby
I'll keep my promise to u
I know it just the way we do, the way do
I miss u

6. Funky Blues

Hey, whatcha doin'
I guess I got some time on my hands
I don't wanna work and don't give a damn
I got this thing I've been thinkin'... Ummmm
Just put it through the test and stop freakin'
U only got one life to live
I got so much love to give
I'm gonna play it all nite long
And gonna jam this groove, huh
And sing to this freakin' song

Freakin' funky blues
Funky, yeah, funky blues
Funky blues, yeah, oh yeah
Freakin' freakin' funk blues
Freakin' funky
Funky blues, hey
Whooo hoooo

Drivin' home at 4 in the morning
It's just a stormin'
Finally got home and my head is beatin'
I kick back and listen to the news
Such a shame, the world views
There's really nothing I can do
And this is what I'm finding
That everyone's got the funky blues, yeah yeah

Adlib...
Do do do do, u gotta keep it funky now baby

Funky blues, yeah
Funky, funky blues
You gotta give the funky blues
Yeah funky, freakin' funky
Freakin' freakin' funk blues
Freakin' funky, baby yeah
Oh, funky blues
Ooooo...

Funky, funky blues
U gotta keep it funky yeah
Funky, awww
Freakin' freakin' funk blues
Freakin' funky blues, Freakin' funky
Funky funky blues
Funky blues

7. Swag

U know u got it baby
Oooh, silky smooth ways about ya
I though I think I'd like to know ya
Got my head in a distraction
I sense u looking for some action
I'm so tempted by the fact
With ur knees and toes so intact
And ur pretty dress that's so abstract
But there's one thing u gotta know
This ain't no game show
U seem to always cross the line
Diggin' for that dollar sign
U know u got it
There ain't no doubt about it
Hoo, hoo, hoo, hoo, u got that swag baby, yeah
Ain't no doubt about it
U know u got it, oh
Hoo, hoo, hoo, hoo, u got that swag
But there's a red flag
Hmmm, When I cross ur path it's the same old
Relentless is ur middle name
Always lookin' for that claim to fame
Awww baby, I think u need to boast
Let's make it clear baby
U can't even make a piece of toast
But I know u got it baby
That je ne sais quoi thing, and all ur crazy bling
But even if I'd like to hold ya
I really should of told ya
I just can't seem to waste my time
Unless u sign on the dotted line ... Yeah
U know u got it
There ain't no doubt about it
Hoo, hoo, u got that swag , yeah yeah yeah
Ain't no doubt about it
U know u got it, u got it
Hoo, hoo hoo hoo, that swag baby
But there's a red flag baby
But u just gotta understand baby,
The stone cold feeling that I get, uh
U made ur move now it's my turn to make the groove
I gotta tell ya now
I won't play ur game, it's such a shame
'Cause u know u got that swag baby, yeah yeah yeah
U know u got it
There ain't no doubt about it, ooh
Hoo, hoo, hoo, hoo ,that swag, baby baby
Ain't no doubt about it
U know u got it, u got it
Hoo, hoo that swag, oh yeah yeah
U know u got it
There ain't no doubt about it, hoouo
But there's a red flag

8. Jungle

Long long ago
This world became so twisted
U can't deny the fact
The powers r an evil face
They wanna control ur living
Like cattle always scared to run
It makes people crazy
Penting up their brain with hasty
Just keep urself in vain, yeah

We're in the jungle
Watch ur step and don't stumble
The urban jungle
Livin' in a struggle, yeah

There's always action
Down every street u know
It takes a second to witness
That somethings gonna blow
Gotta go, go, go
Confused about the sinner
With a shaken soul
And careless systems, I just don't know
U think to make it better
Just can't confide
But u just can't hide in the jungle, yeah

We're in the jungle
Watch ur step and don't stumble
The urban jungle
Livin' in a struggle, yeah

The rich have this vision
Making poor decisions
Using, abusing, and killing... And senseless wars
For the power of just wanting more
And time keeps goin' on and on and on
There's no change I knew it all along
We need to take a chance
And keep on lovin'
Each other
And fix the wrong
Before it's all gone

We need a revolution
Rid the corporate greed
Of corruption, destruction, yeah
The system needs a change
We need a revolution

9. I Bet Ya

Hey, let me tell ya something
I just don't play that way for nothing
I got my reasons to believe, and my perception
From ur bullshit talk and persuasion
U always thinkin' that u got somethin' to prove
But u really ain't got no groove
U bettin' what ur heart is sayin'
Thinkin' not too bright
U gonna loose ur faith
Expecting that ur right

I bet ya, huh
I bet u didn't see it comin' y'all woo hoo
I bet ya
Yeah
I bet ya
Woo,hoo, hoo, hoo, hoo, hoo

[Mary in the house y'all, hit it]

I just know u gotta pay ur dues
And take some chances
Finally got some weight of my shoulders
Here come the taxes
But u gotta keep on movin' yeah
And feel what's comin'
I gotta check my senses
It's time for lovin'
Oh I'm feelin' quite exceptional
But somethin' in my head is sayin', a little sceptical
Now's the time keep on the groove
And don't get played
I'm gonna make my move yeah
I pick the ace of spades, yeah

I bet ya, oooo, I'm gonna bet ya girl
Woo hoo, yeah
I bet ya, baby, ur gonna, bet what
Woo, hoo, hoo, hoo, hoo, hoo
I bet ya baby yeah
I, I bet ya baby, hey baby
Woo hoo hoo, I bet ya bet ya
Bring it
Adlib...
I bet ya, ha

10. Funky Jam III

Adlib...

11. Easy

Every Sunday morning
I feel amused, ummm
I get out my six string and
Play the blues, yeah
I gonna sit and sing my song, all day long baby
It's freakin' cold outside, but that's ok
I'm gonna take it all in stride
I gotta kick back, and clear my brain
Got no choice, 'cause I gotta foot sprain
Maybe I'll watch the news, but it's all the same
I feel my conscious, yeah
I just gonna sit back, and feel the blues
I'm gonna take the time to decompress
From all the stress, yeah
I can't decide if I should or could
But keep in mind, it's all good
Even though u think I'm dry
Don't look down too deep inside
I just need my down time
To get back up, to my prime
Just take it easy, easy
I'm gonna do it weekly, weekly
I need to feel that I'm in my zone, all alone
Livin' day by day
I've come a long long way
Just take it easy yeah, easy
Easy peasy, peasy
Lookin' at shit on my phone
Gonna stay home in this frigid zone
And drink my wine, it's so fine
Just take it easy
Oh, u just gotta feel it, u gotta know
It's the only way to go, yeah
Even if it rains, or if it snows
All u can do is, go with the flow yeah u know
There no sense in feelin' crazy
Or feelin' guilty being lazy
Take the moment and do whatcha gotta do, yeah
Just take it easy, easy
I'm gonna do it weekly, weekly
I need to feel that I'm in my zone, all alone
Livin' day by day
I've come a long long way
Take it easy, yeah, easy
It's easy peasy, peasy
Lookin' at shit on my phone
Gonna stay home in this frigid zone
And drink my wine, it's so so fine
Just take it easy, yeah
Easy peasy, oh yeah, aww

12. Try

I
I'm feeling good ya know
I got some time to do my thing, yeah
But right now
I feel the need to sing
Time goes on by
Just let yourself feel free
Give it all you got
You only got one shot
I know sometimes you're feeling down
Just take a minute to turn it around
One thing's for sure you gotta know
Yeah yeah
You got to try
And reach for the sky
Try baby, oh
Taking little steps is the way to fly
As long as you try
Yeah yeah yeah yeah yeah
Try, ooh
You
Just gotta let it go
No point in holding on
You gotta keep it strong
But you gotta understand
It helps with cash in hand
Even if you got none
You still gotta have some fun
I know sometimes you're feeling down
Just take a minute to turn it around
One thing's for sure you gotta know
Yeah yeah
You got to try
And reach for the sky
Try baby, oh
Taking little steps is the way to fly
As long as you try
Try baby
Yeah yeah, ooh
Baby baby baby
You gotta try try try
Hmmm
Keep on trying
Try baby
